MOHAMED NALEEM

Senior Full Stack Developer | Angular · React · Node.js · MERN Stack

PROFESSIONAL SUMMARY

Senior Full Stack Developer with **12+ years of experience** designing and delivering enterprise web applications across **banking, healthcare, telecom, and SaaS**. Deep expertise in **Angular** and **React.js** front-ends, backed by **Node.js / Express.js REST APIs**, **MongoDB** and **Oracle** databases, and **Azure DevOps CI/CD**. Proven technical leader who has led front-end delivery, reviewed and approved core-team code, mentored developers, and partnered directly with clients on requirements. Currently building the **DLL One Source** banking platform at Cognizant using AI-assisted development with **GitHub Copilot**.

12+ Years
Enterprise web & API development

4 Domains
Banking · Healthcare · Telecom · SaaS

Technical Lead
Code review, mentoring & client delivery

AI-Augmented
GitHub Copilot certified engineer

CORE TECHNICAL SKILLS

Front-End	Angular, React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3 / SCSS, Bootstrap, Angular Material, RxJS, NgRx, AG Grid, DevExtreme, Chart.js
Backend & APIs	Node.js, Express.js, RESTful API design & development, API integration, WebSocket, microservices exposure
Databases	MongoDB, Oracle Database, SQL, PL/SQL, query optimisation, data validation
DevOps & Tools	Git, GitHub, Azure DevOps, Azure Pipelines, CI/CD, Docker, Jest, Strapi (Headless CMS), Form.io
AI-Assisted Engineering	GitHub Copilot, prompt engineering, LLM concepts, RAG, agentic workflows, responsible-AI guardrails
Practices	Agile / Scrum, code review, unit testing, production support, requirement analysis, client communication, mentoring

PROFESSIONAL EXPERIENCE

Senior Associate – Projects | Cognizant Technology Solutions, Chennai
Jul 2025 – Present

Client: DLL (De Lage Landen) · Application: DLL One Source · Banking & Financial Services · Role: MERN Stack Developer

- Develop and enhance responsive, component-driven user interfaces for **DLL One Source**, an enterprise banking platform supporting business workflows, using React.js, TypeScript, HTML5, CSS3 and Bootstrap.
- Build and maintain **RESTful APIs** with Node.js and Express.js, integrating MongoDB and Oracle data sources for reliable end-to-end features.
- Write and optimise **SQL queries**, support data validation, and collaborate on backend and database changes across environments.
- Leverage **GitHub Copilot** for AI-assisted code generation, debugging, code-review support and documentation to accelerate delivery.
- Contribute to Agile ceremonies, peer code reviews, defect resolution, release support and **Azure DevOps CI/CD** pipeline activities.

Tech: React.js, Node.js, Express.js, MongoDB, Oracle, SQL, JavaScript, TypeScript, REST APIs, Azure DevOps, GitHub Copilot

Technical Lead | HCL Technologies, Chennai
Oct 2022 – Jun 2025

Client: Abbott · Projects: HF Cloud, DRx, EMR/EHR · Healthcare & Medical Applications

- Led front-end delivery of healthcare applications connecting **hospitals, clinicians and heart patients** for treatment and device-related workflows.
- Designed and built **dynamic treatment plans**, reusable templates and dashboard modules for clinical users with Angular, NgRx and RxJS.
- Delivered an **EHR dashboard** that unified multiple Abbott application views into a single portal for patient records.
- Reviewed and approved core-team code, drove quality improvements, and partnered with client stakeholders on requirement clarification.
- Worked with WebSocket-based real-time updates and Chart.js visualisations for clinical dashboards.

Tech: Angular, Angular Material, TypeScript, RxJS, NgRx, Chart.js, WebSocket, HTML, CSS, Bootstrap

Senior Software Developer – Team Leader | Cloud Collab Technologies, Bangalore

Mar 2021 – Sep 2022

Client: Mavenir Systems · Telecom / Customer Self-Service

- Led UI development of **eCommerce and customer self-care portal** modules built from scratch, including responsive layouts and carousel experiences.
- Implemented **dynamic, configurable forms** with Form.io and integrated enterprise UI components such as AG Grid.
- Guided the team on Angular best practices and NgRx state management, with Strapi headless CMS and Docker-based environments.

Tech: Angular, Angular Material, AG Grid, RxJS, NgRx, Form.io, Strapi, Docker, HTML, CSS, Bootstrap

Software Developer II | Zuora, Chennai

Feb 2017 – Feb 2021

Subscription Billing · Enterprise SaaS

- Developed and maintained enterprise web application features for a **subscription-billing SaaS platform** using Angular, Angular Material and DevExtreme.
- Delivered UI enhancements, **unit tests with Jest**, and issue fixes across database-driven workflows backed by SQL.

Tech: Angular, JavaScript, HTML, CSS, Bootstrap, Angular Material, DevExtreme, RxJS, Jest, Git, GitHub, SQL

UI Developer | Mind Bridges Technology, Chennai

Jul 2014 – Jan 2017

- Built web application screens and **reusable UI components** using HTML, CSS, JavaScript, Bootstrap and AngularJS.
- Supported implementation, defect fixing and user-interface improvements for client applications.

Tech: HTML, CSS, JavaScript, Bootstrap, AngularJS

DOMAIN EXPERIENCE

Banking & Financial Services – DLL One Source enterprise banking application

Healthcare – Abbott HF Cloud, DRx and EMR/EHR platforms

Telecom – Mavenir eCommerce and customer self-care portal

SaaS / Billing – Zuora enterprise subscription-billing applications

AI-NATIVE ENGINEERING

- Hands-on with GitHub Copilot for code suggestions, debugging, code-review support and documentation.
- Exploring prompt engineering, LLM-based applications, RAG, agentic workflows and AI-enabled automation.
- Applying responsible-AI guardrails while upskilling in AI-native engineering practices.

EDUCATION

B.E. Electrical & Electronics Engineering — **8.12 CGPA**

Adhiyamaan College of Engineering, India — Aug 2009 – Apr 2013

State Board XII – 79.02% · State Board X – 79.75%

CERTIFICATIONS & COURSES

CERTIFIED **GitHub Copilot** – AI-Augmented Software Engineer Professional Certification

Angular Material Design · Angular Unit Testing · RxJS · NgRx · Git & GitHub · Strapi Headless CMS

PROFESSIONAL STRENGTHS

- Works effectively both independently and in teams, across remote and in-person collaboration.
- Strong client interaction, requirement clarification, problem-solving and end-to-end delivery ownership.
- Continuously learning and upgrading skills across full-stack development, DevOps and AI-assisted engineering.
